

# *Invitations to the renovated reopening of the store*

It is our pleasure to greet you this early fall, and we hope this letter finds you in good health.

The gallery will be reopening on October 5th after the completion of the renovation works that have been causing inconvenient to our patrons since June. We would like to express gratitude for your patronage again on this occasion.

The new gallery will also display contemporary artworks in addition to antique works. We will introduce present-day artists who also possess exquisite skills and sensibilities, with the same discerning eyes with which we have dealt with antiques and modern crafts so far. We would like as many people as possible to know about the contemporary geniuses. We hope to further widen their worldview through the encounter with new artists and their works. We hope this gallery will become such a place.

Partnering with the artists having solid skills and the sensibility of our patrons, we wish to create artworks that will last beyond a hundred or two hundred years. As we start off with this endeavor, we hope for your continued patronage and kind support. Please accept this letter as the greetings on the renewal opening of the gallery.
